Guidelines of Handling & Storage conditions

1. Suitable printing condition : 18 ~ 25°C temperature, 30 ~ 50 % humidity recommend.
2. To avoid defect on material - like fingerprints - use of cotton gloves is recommend.
3. Too high temperature of pre-heating or strong dryer may lead to an inferior print and color difference.
4. Ambient temperature and weather can affect the condition of products.
5. Recommend to leave the materials away from dust & direct sunlight.
6. After use, storage is best to be done in the original case.
